

“

The program was very much worth the cost and my time. Having six weeks to prepare and solely focus on studying was exactly what I needed. I would recommend this to anyone preparing to take the MCAT. I loved the fact that I had zero distractions and that I could focus only on studying.

MCAT Summer Intensive Program Student

Ready to do anything it takes to get a powerhouse score?

Take the MCAT Summer Intensive Program, with over 300 hours of MCAT immersion for the most concentrated MCAT prep experience ever. This high-achieving program focuses all your brainpower, energy, and attention on the MCAT.

Unique MCAT Course Structure

Boost your MCAT skills with Kaplan's results-driven curriculum, including comprehensive content review, exclusive test-taking strategies, and personalized attention, all to help you:

- ▶ Build a rock-solid science foundation at dynamic lectures
- ▶ Learn time-tested, score-raising strategies in small-group recitations
- ▶ Focus on your needs in twice weekly private tutoring sessions
- ▶ Practice your lessons at staffed study halls every weekday evening until 11p.m.
- ▶ Master the computer-based MCAT format at weekly, proctored computer practice tests
- ▶ Prepare for admissions success with weekly presentations from medical school admissions experts

“

Living together on the same campus, sharing meals and free-time, and engaging each other in the classroom make the experience truly unique. Collegiality is a given, and a deep sense of connection between students and faculty a reality.

Joel Thomas
Faculty Member, '08, '09, '10

Meet our MCAT Summer Intensive faculty

Take a look at a few members of our all-star faculty¹—the heart and soul of the MCAT Summer Intensive Program. Directed by Dr. Jeff Koetje, this experienced team of 20 professionals prepares you with score-raising MCAT strategies and targeted prep, keeping you focused on achieving at your highest level.

Jeff Koetje, MD
Program Director, MCAT SIP

Dr. Jeffrey Koetje, graduate of Johns Hopkins University (B.A., Biology, 1996) and Northwestern

University Medical School (M.D., 2000), has been a Kaplan MCAT expert for eight years. He has worked with pre-med students in various roles: full-time teacher, regional pre-health director for the New York area, and director of the Kaplan MCAT Summer Intensive Program. Currently, he is the national assistant director of Pre-Health Programs at Kaplan's headquarters in New York. Prior to his appointment as director, Jeff was a guest lecturer at the inaugural Kaplan MCAT SIP, and spent the program's second summer as the academic manager. He loves working with pre-med students, in whose faces he sees reflected the same hopes, dreams, anxieties, and neuroticisms that he himself possessed as a doctor-to-be.

John Linick, Academic Director, San Diego MCAT SIP

John graduated from the University of Illinois in 2006 and from the Boulder College of Massage Therapy

in 2008. In addition to teaching for Kaplan, John has recently started his own massage therapy practice. He joined the SIP faculty in 2008 and then returned to the San Diego SIP as Academic Director in 2009. He looks forward to returning this summer to direct the student experience and work on his surfing skills.

Judy Choe, Academic Director, Boston MCAT SIP

A graduate of UT Austin, Judy was a faculty member of the schools' after finishing her Master's Degree in 2006. Judy joined Kaplan in 2008 and directed the SIP 2009 at BU. She is currently the Pre-Health Academic Manager for Kaplan in Manhattan and is excited to return as director of BU SIP 2010. Judy is a runner and looks forward to power walks and runs with SIP students in the early morning hours before MCAT practice tests.

Bree Berry

A graduate of Davidson College with a background in biology and anthropology, Bree has taught for Kaplan since 2008. She was a member of the BU SIP 2009 faculty. Currently living and working in Atlanta, Bree continues to wow MCAT students all over the country for Kaplan's Live Online program. She will be starting her medical education at the Medical College of Georgia after teaching for BU SIP 2010.

Joel Thomas

After graduating from Harvard University, Joel returned home and completed two years of medical school at the University of Wisconsin-Madison. After deciding to pursue interests other than clinical medicine, Joel joined the Kaplan MCAT faculty while writing his book, *U.S. Health Care for Activists*. Joel has taught at both the BU (2008) and UCSD (2009) SIP. This year, he returns to Boston for SIP 2010.

“

The program was really intense. It was a lot of work, but worth it. It really improved my confidence and increased my score more than I thought it could.

MCAT Summer Intensive Program Student

Why is intense MCAT prep so vital?

Competition for medical school is intense—only 43% of people who apply actually get in. Getting the best MCAT prep you can is critical for other reasons, too, including:

- 1** Your MCAT score is one of the most important factors in your application.²
- 2** Small score improvements can translate into massive “leapfrogging”—3 additional correct answers can advance you ahead of 11,000 test takers.³
- 3** Your MCAT score is a strong predictor of your med school success, especially in GPA and board scores.⁴

Why Kaplan?

More people get into medical school with a Kaplan MCAT course than with all other major courses combined.[†] And since your MCAT score is so important, trust a leader with three unique benefits over the competition:

✓ **The Most Personalized Prep Available**

With an 8:1 student-teacher ratio, our hand-selected faculty will guide you through our arsenal of over 11,000 practice questions, including the eight AAMC Practice Tests. We'll target your greatest areas of opportunity with our exclusive Smart Reports™ score analysis and give you personal recommendations on what to do next.

✓ **Unmatched Expertise**

An elite faculty teaching Kaplan's exclusive strategies means you'll experience expertise that is truly unmatched. Our Summer Intensive faculty features some of Kaplan's highest-rated veteran MCAT instructors, all with 90th+ percentile scores. Members of this prestigious faculty have been admitted to medical schools such as Penn, Harvard, UC Irvine, UC San Diego, Duke, and Georgetown.

✓ **Guaranteed Results—Score Higher or Your Money Back[†]**

Kaplan offers the industry-leading Higher Score Guarantee. Not ready to take the test? Study again with us for free. Or, not satisfied with your score? Study again with us for free. Or if your score does not improve, study again with us for free, or get your money back.

“

Every member of the faculty was wonderful! They were so willing to help answer any questions, were always positive and motivational, and very organized with every lesson plan. The faculty went above and beyond what I expected.
